

Foreword

Mellonamin,

Below you will find simple grammatical rules and word lists for use in creating elven phrases. Much effort has been put into making the process as simple as possible. A section on elven roleplay may also be found after the word list. The Grey Company's Elven is a growing language based 'loosely' on the elven found throughout JRR Tolkiens works. As we strive to nurture its growth, all input is encouraged and appreciated.

This Guide has been slightly modified to the needs of the GlamerVelt. Some words might have been added or changed to suit the style of the Velt Elves. Some parts not relevant to the Velt have been removed. Credit for this incredible piece goes to the Grey Company Guild. The original version of this document can be found at <http://www.grey-company.org>.

This dictionary and accompanying phrase guide represent uncountable hours of work by the members of the Grey Company. Permission is given to distribute this dictionary for role-playing purposes as long as the entire dictionary, including the credits for those who did the work, is kept intact. In other words, don't pretend you made it when you pass it out. If you add your own words and phrases, please inform a member of the Grey Company so we can see to it that the new words are added, you'll be given credit for it.

How to Use

First I want to say that it is **NOT REQUIRED** to know all of those words or speak fluent elvish. We would encourage you to know at least some basic elven words, such as hello, farewell, yes and no, since this adds to your Rping and the enjoyment of the game. Feel free to expand your vocabulary over time with the terms you like and use them ingame or in your posts.

GRAMMAR

-

1) **PLURALS:**

- * Denoted r, ea, ie, or, io, and oo. Exact choice is left up to the person creating the plural.
- * Use -rim to denote great numbers or respect

Examples:

nimbrethie = birches

Aredhelrim = elf lords

2) **PRONOUNS:**

- * when used alone pronouns express subjects (amin mela lle - I love you)
- * when used in possessive phrases they express possession (melamin - my love)

I (my,mine)	amin	him (his)	Ho
we, us (ours)	lye	her (hers)	He
he	ro	they	Ron
she	re	them (their)	Sen
it (its)	ta	this	Sina
you (yours)	vys	that	Tanya
you(p) (yours-p)	vysor	who	Ya

3) **POSSESSIVE PHRASES:**

SIMPLE

Subject:possessor

- * Append pronoun to end of object.
- * Pluralize noun first.

Examples:

irmo = desire, irmoamin = my desire or irmoieamin = my desires

atar = father, atarho = his father

COMPLEX

Subject of Subject:possessor

- * Separate secondary subject (possessed by primary subject) with en

from the simple familiar of the primary subject.

Examples:

mela en coiamin

love of the life of I

love of my life

tinu en atarahe

daughter of the mother of her

her mother's daughter

SIMPLE NONFAMILIAR OR PROPER

Subject of Possessor

* use when possessor is expressing distance/separation from object
or when possessor is proper.

* Separate subject from possessor with en.

Examples:

mellon en amin

friend of I

my friend (expresses distance)

megil en Lywnis

sword of Lywnis

Lywnis' sword

4) ADJECTIVES:

* Append to the front of the object/action they are describing.

Examples:

corialote

purple flower

lashae

wide ocean (last 2 n's from lann dropped)

* when expressing intensities (i.e. bright, brighter, brightest)

1) when stem ends in vowel append -n for -er and -nin for -est

Examples:

tiri = bright, brightly tirin = brighter tirinin = brightest

2) when stem ends in noun append -in for -er and -inin for -est

Examples:

calen = green calenin = greener caleninin = greenest

5) ADVERBS:

* Follows verb in unchanged form.

* Also see intensity rules listed above.

Examples:

cormamin glina tiri	my heart it gleams bright	my heart gleams brightly
i'aredhelrim quene hodo	the elf lords they spoke wise	the elf lords spoke wisely

6) VERBS:

* Conjugate to past, present, future, conditional with e,a, uva, aya

past	-e
present	-a
future	-uva
conditional	-aya

Examples:

amin elee = I saw, amin elea = I see, amin eleuva = I shall see, amin eleaya = I would see

* two or more conjugated verbs may exist in one phrase as long as are not strung together.

* use unconjugated verbs when stringing more than one together

Examples:

amin irma quen	I desire to speak
vys delotha mel amin	You hate to love me

* -ing endings are expressed by appending -ad or -ien to the stem if it ends in a noun
or - d if it ends in a vowel.

Example:

amin naa tulien a' i'til	I am coming to the point
--------------------------	--------------------------

* -ed endings are expressed using the past tense conjugation.

Example:

nardane ron kaime e' i'liavea en' ilya n'at	entwined they slept in each others arms
---	---

7) CREATION OF NEW WORDS

* keep it simple, use portions of other words, and try to remain true to the flowing nature of elven

- * before using the words your new words, either post them to the GC private folder entitled Language Discussion, or get written permission from the Keeper of The Dictionary.
- * rationalize your derivation, before using the words that you create. If a suitable words for derivation do not exist than make one up keeping in mind simplicity and the nature of elven.
- * when taking a noun from a verb stem:
 - 1) conjugate to present form for direct noun (i.e. ele- to see, elea(v) sees, elea(n) sight
 - 2) for a related term, append either o or u to the stem (i.e. eleo - eye)
 - 3) when ascribing the verb to a person, append ar to the stem
(i.e. oht-war, ohtar - warrior)
- * when creating words from two or more words, append together and drop enough letters from the appendor to avoid cumbersome letter sequences (see below)

8) **PHRASE CONSTRUCTION:**

- * Use subject - verb - object (add adverbs and adjectives as above)
- * Phrase questions as statements followed by question maker.
- * Words such as a, does, would etc. may be inferred from the context of the phrase.
- * When appending pronouns or adjectives, you may drop letters from the appendor in order to eliminate awkward sequences of letters. Examples would be avoiding 3 consonants in a row, 3 vowels in a row, or 2 of the same vowel in a row.

Examples:

Amin mela vys.	I love you.
Lye nuquernuva sen e dagor	We will defeat them in battle
Vys anta yulna en alu?	Do you need a drink of water?
Uma, amin naa fauka.	Yes, I am thirsty
Amin sinta thaliovys e dagor	I know your strength in battle.

More Complex Examples:

Amin lastuva ten' aredhelamin quena hodo.

I will listen because my lord (elf) speaks wisely

Llie tula mellonea, vasa ni yulna en mereth en amin.

Come friends, eat and drink of my feast

Il'quen sinta mellonamin Lywnis?

Does everybody know my friend Lywnis?

Uma, lye sinta he.

Yes, we know him.
